Of Equalization -- Mandamus Is Applied For.

Guthrie, O. T., Aug. 16.-Chief Justice Burford hamtaken under advisement the motion of the aftorney general for a writ of mandamus to compel the county commissioners to extend the territorial tax of three mills on the tax rolls. When the county commissioners met on the day fixed by law, in the absence of a certificate of the territorial levy by the auditor, the county board proceeded to make a territorial levy of two mills instead of adjourning until another day as the law further directs. The auditor's delay in certifying the territorial levy is explained by the dilatoriness of the county clerks in sending in the county assessment returns and delaying action by the territorial board of equalization. The county board of commissioners refused to change their levy in accordance with the certificate finally rendered by the auditor and the territory now seeks to compel the by a writ of man-

TITLES AT MOUNTAIN VIEW Secure Under the Liberal Pelicy of the School Land Board

Mountain View, O. T., Aug. 16.-The question of title to lots in Mountain View has been permanently settled. The town is located on school land and the territorial school board has granted a new lease, recognizing the survey and platting of the lots and the use of the land for townsite purposes. Under the terms of the new lease the Mountain View Improvement company is given a lease of the school section until January 1, 1961, with power to survey, plat and release, and the lessees of lots are guaranteed the preference right to release at not to exceed 1 per cent blenwial rental of the appraised value. They are also given the preference right to purchasse the lots in case the land is appraised and sold. Many of the lot holders prefer this arrangement to a deed, as the rental to be paid into the school fund will be less than the taxes if the lots were deeded. A lot appraised at \$300 will cost the owner \$1 a year, which is less than the taxes on any deeded lot of like value in the territory. The Mountain View Improvement company is selling leases to lots at a nominal figure and 5 per cent of the amount of sales goes into the school fund. This is probably the only town in America built entirely on school land, and every child of school age in the territory is interested in its welfare. The legality of the plan has been looked into by the best lawyers of the territory,

Rain (s needed in all sections to save the very late planted crops, and for pastures. The bulk of the corn crop has matured in excellent condition, and cutting has begun. Most correspondents report the very late corn to be materially injured by the hot winds of the past week. Cotton continues in good condition except in a few localities in Oklahoma. In the nations there is a general complaint of injury from dry and hot weather, and the general outlook is less promising than formerly; only in a Tew localities is the crop improved. Threshing and haymaking continued throughout the week, the weather being favorable for this work. Sorghum, kaffir and the filner crops are good. Pastures and gardens are badly needing rain, and in general all but the matured crops are in serious danger from the prevailing drouth.

This was a long period of happiness, of peace of mind, of joy at being his wife. We were gone nearly a year. After our return we lived in New York in a beautiful home on Sixty-third staget. For a time all went well. We loved and we were happy. He had led a fast life before he met me. The recollections

of the tenderloin clung to him and he took me there. I thought it must be lovely to be so gay, and soon I was infatuated by the tinsel and flash, knowing nothing of the sordidness and evil underneath. Then it was that I took my first giass of wine. Mr. Kohisaat said he sympathiged with trades unionism and would do nothing to antagonise unions, but that in the matter of the Chicago situation, in the discussion of which the president's report misquotel him, he must net with the Chicago Publishers' association. The situation referred to is the projected idea of endesvering to unionize all the allied printing trades in Chicago, which are at present employing both union and non-union labor in some branches.

Committees are considering resolutions indorsing The Hague peace conference and declaring for establishing an International Electrotypers' and Stereotypers' union, without the furisdiction of the International Typographical union.

Consideration of constitutional amendments and recommendations from the committee on laws occupied the afternoon session. The committee recommended that the admission of non-printer proof readers to the union be left to the discretion of girls of the tenderioin, spoke to me, and the local unions to as large an extent as urged me to reform.
